

Quality that's made to withstand the harshest environments

KBJ

KBJ offers the highest-quality aftermarket undercarriage parts for heavy mining equipment and machinery. Specially produced in our wholly-owned manufacturing facilities, KBJ undercarriage parts enable better performance, greater savings, and lower maintenance costs.

Track Chains

Range includes sealed (dry) and SALT (sealed and lubricated tracks) chains for most popular bulldozer and excavator models. Manufactured to meet ISO9001 and ISO14001 quality standards. Manufacturer's warranty provided.

Rollers

Track and carrier rollers for excavators and bulldozers manufactured to OEM specifications with precision-engineered components, friction-welded, innovative heat treatment and lifetime sealing systems. Manufacturer's warranty provided.
